Tai Chi Fundamentals® Adapted Program Reviews

"...new and very timely....destined to become [a] widely used landmark program." —Peter Wayne, PhD, Author, *The Harvard Medical School Guide to Tai Chi*

"I highly recommend this program for experienced Tai Chi instructors teaching students with limited mobility."—Tai Chi Grandmaster William C.C. Chenp

"A remarkable gift to the world of rehabilitation...brilliant, inspired work."—Jennifer M. Bottomley, PT, MS, PhD, President: International Organization of Physical Therapist working with Older People

"This is the most all-inclusive program for Tai Chi I have found for individuals that require adaptive techniques or external support..." —Marcella McGee OTD, OTR/L, Physical Medicine and Rehabilitation

Approved for 12 CEUS by Wisconsin Physical
Therapy Association

PROGRAM DESCRIPTION

Tai Chi Fundamentals® Adapted Program (TCFA) is an adaptable, accessible program for learning tai chi. Suitable for individuals with a wide range of abilities, it includes instruction in three versions: Standing with Optional Side Support, Walker Support and Seated. All program elements can be modified to accommodate individual needs.

Program Elements: All movements are taught in a motor development progression and have been modified for practice with optional side support, walker support and seated. All 3 versions include:

- **Basic Moves:** a series of exercises that trains postural alignment, body mechanics and energetic components of tai chi. Designed as building blocks for learning tai chi, they are taught in a simple-to-complex progression with discrete, measurable increments in difficulty and have applications as assessment and intervention tools.

- **Tai Chi Fundamentals Short Form:** a flowing sequence of tai chi movements based in Yang Style tai chi and adapted from the original Tai Chi Fundamentals® Form.

- **Mind/Body Skills Training:** integrated into both Basic Moves and Short Form instruction. Fosters attention and focus, a calm observant state of mind, awareness of posture and breathing and physical relaxation. Characteristic of all traditional tai chi practice, Mind/Body Skills training helps foster the cultivation of healthy qi or vital energy.

Development: in 2014 by Tricia Yu, MA based on need for a program that is easier to learn than the original TCF program and that includes modifications for standing with support and seated applications.

CERTIFICATE OF COMPLETION

At the end of this course participants receive a *Tai Chi Fundamentals Adapted Program Basic Moves Training Course Certificate of Completion*.

CERTIFICATION

TCF Program certification requires additional contact hours, fees, written and movement tests. More information at <http://taichihealth.com>
