Tai Chi Fundamentals® Adapted Program Reviews

"...new and very timely....destined to become [a] widely used landmark program." —Peter Wayne, PhD, Author, *The Harvard Medical School Guide to Tai Chi*

"I highly recommend this program for experienced Tai Chi instructors teaching students with limited mobility."—Tai Chi Grandmaster William C.C. Chen

"A remarkable gift to the world of rehabilitation...brilliant, inspired work."—Jennifer M. Bottomley, PT, MS, PhD, President: International Organization of Physical Therapist working with Older People

"This is the most all-inclusive program for Tai Chi I have found for individuals that require adaptive techniques or external support..." —Marcella McGee OTD, OTR/L, Physical Medicine and Rehabilitation

Approved for 12 CEUS by Wisconsin Physical
Therapy Association

PROGRAM DESCRIPTION

The Tai Chi Fundamentals® Programs (Adapted and Original) are accessible and versatile programs for learning tai chi. Suitable for individuals with a wide range of abilities, they include instruction in three versions: Standing with Optional Side Support, Walker Support and Seated. All program elements can be modified to accommodate individual needs.

Program Elements: All movements are taught in a motor development progression and have been modified for practice with optional side support, walker support and seated. All versions include:

- **Basic Moves:** a series of exercises that trains the postural alignment, body mechanics, and energetic components of tai chi. Designed as building blocks for learning tai chi, they are taught in a simple-to-complex progression with discrete, measurable increments in difficulty and have applications as assessment and intervention tools.

- **Tai Chi Fundamentals Form:** a flowing sequence of tai chi movements based in Yang Style tai chi.

- **Mind/Body Skills Training:** integrated into both Basic Moves and TCF Form instruction. Fosters attention and focus; a calm, observant state of mind; awareness of posture and breathing; and physical relaxation. Characteristic of all traditional tai chi practice, Mind/Body Skills training helps foster the cultivation of healthy *qi*, or vital energy.

Development: Original TCF Program developed in 1996 by Tricia Yu, MA and Jill Johnson, MS, PT, targeting elements from traditional tai chi that enhance balance, coordination, strength, and endurance. TCF Adapted Program developed in 2014 by Tricia Yu, MA, based on the need for a program that includes modifications for standing with support and seated applications.

CERTIFICATE OF COMPLETION

At the end of this course participants receive a *Tai Chi Fundamentals Program Basic Moves Training Course Certificate of Completion*.

CERTIFICATION

TCF Program certification requires additional contact hours, fees, and written and movement tests. More information at <http://taichihealth.com>

COURSE ONE

Tai Chi Fundamentals® Program Basic Moves Training for Adapted and Original TCF

COURSE DESCRIPTION

Prerequisite: None

Course One teaches TCF Program Basic Moves with Optional Side Support (OSS). Introduces Walker & Seated versions of the Basic Moves and the OSS TCF Short Form Part 1. Features Mind/body Skills training, applications for wellness, & rehab, partner teaching practicums, and introduction to the ROM Dance® Program.

At the end of this course, a *TCF Program Basic Moves Certificate of Completion* is awarded to participants who have demonstrated ability to teach Basic Moves. Course qualifies as partial contact hours fulfillment for TCF Instructor Certification.

COURSE OBJECTIVES

- 1) Learn TCF Program Basic Moves with Optional Side Support
- 2) Teach TCF Program Basic Moves with OSS
- 3) Learn principles of movement adaptation for participants using chairs and walkers
- 4) Describe TCF's rationale, biomechanics, & functional benefits
- 5) Learn and practice Centering, breathing, and posture awareness exercises
- 6) Practice TCF Program Short Form, Part One with OSS

APPLICATIONS

Balance, orthopedic & neurological rehabilitation, pain management, sports cross training, cardiovascular & respiratory diseases, medically complex, chronic fatigue, fibromyalgia. Use in hospitals, sub-acute, outpatient clinics, & home care. Teach groups of all ages, abilities, fitness levels in community wellness classes, health clubs, tai chi & martial arts schools, senior centers & long-term care facilities.

AUDIENCE

Anyone interested in learning the program for personal use or wanting to teach tai chi. Physical and occupational therapists, PTAs, COTAs, nurses, activity directors, recreational and fitness professionals, tai chi and other martial arts instructors, acupuncturists, and integrative health practitioners.
