Tai Chi Fundamentals® Adapted Program Reviews

"...new and very timely....destined to become [a] widely used landmark program." —Peter Wayne, PhD, Author, *The Harvard Medical School Guide to Tai Chi*

"I highly recommend this program for experienced Tai Chi instructors teaching students with limited mobility."—Tai Chi Grandmaster William C.C. Chen

"A remarkable gift to the world of rehabilitation...brilliant, inspired work."—Jennifer M. Bottomley, PT, MS, PhD, President: International Organization of Physical Therapist working with Older People

"This is the most all-inclusive program for Tai Chi I have found for individuals that require adaptive techniques or external support while performing Tai Chi" —Marcella McGee OTD, OTR/L, Physical Medicine & Rehabilitation

Approved for 12 CEUS by Wisconsin Physical
Therapy Association

PROGRAM DESCRIPTION

The Tai Chi Fundamentals® Adapted Program

is an adaptable, accessible program for learning tai chi. Suitable for individuals with a wide range of abilities, it includes instruction in three versions: Standing with Optional Side Support, Walker Support and Seated. All program elements can be modified to accommodate individual needs.

Program Elements: All movements are taught in a motor development progression and have been modified for practice with optional side support, walker support and seated. All 3 versions include:

Basic Moves: a series of exercises that trains postural alignment, body mechanics and energetic components of tai chi. Designed as building blocks for learning tai chi, they are taught in a simple-to-complex progression with discrete, measurable increments in difficulty and have applications as assessment and intervention tools.

Tai Chi Fundamentals Short Form: a flowing sequence of tai chi movements based in Yang Style tai chi and adapted from the original Tai Chi Fundamentals® Form.

Mind/Body Skills Training: integrated into both Basic Moves and Short Form instruction, fosters attention and focus, a calm observant state of mind, awareness of posture and breathing and physical relaxation. Characteristic of all traditional tai chi practice, Mind/Body Skills training helps foster the cultivation of healthy qi or vital energy.

Development: 2014 by Tricia Yu, MA based on need for a program that is easier to learn than the original TCF program and includes modifications for standing with support, walker & seated applications.

CERTIFICATE OF COMPLETION

At the end of this course participants receive a *Tai Chi Fundamentals Adapted Program Short Form Certificate of Completion*.

CERTIFICATION

TCF Program certification requires additional contact hours, fees, written and movement tests. More information at <http://taichihealth.com>

COURSE TWO:

Tai Chi Fundamentals® Adapted Program (TCFA) Short Form Training

COURSE DESCRIPTION

Prerequisite: Course One: TCFA Basic Moves Training

Participants review standing Basic Moves and Form Part One and learn Optional Side Support Short Form Parts Two and Three. Learn and review Basic Moves Walker and Seated versions and overview corresponding Adapted forms for each. Course includes partner teaching practicums, TCF applications for specific populations, and training in sensing qi.

The course includes program applications for wellness and rehab settings. A Certificate of Completion is awarded to participants who have fulfilled the 12 contact hours requirement and have demonstrated ability to teach program elements. This course also qualifies as partial contact hours fulfillment for TCF Instructor Certification. See: Certificate of Completion.

COURSE OBJECTIVES

- 1) Learn Basic Moves & TCF Adapted Form in Optional Side Support, Walker, and Seated versions
- 2) Teach TCF Adapted Basic Moves (Seated Version).
- 3) Teach TCF Adapted Form moves with Side Support.
- 4) Describe TCF's rationale, biomechanics, and functional benefits
- 5) Lead Centering, Breathing, and Posture Awareness exercises
- 6) Apply the sequence for introducing Mind/Body Skills

APPLICATIONS

Balance dysfunction, orthopedic and neurological rehabilitation, pain management, sports cross training, cardiovascular and respiratory diseases, medically complex, chronic fatigue, fibromyalgia, and special populations. Use in hospitals, sub-acute, outpatient clinics, and home care. Teach groups of all ages, abilities and fitness levels in community wellness classes, health clubs, tai chi & martial arts schools, senior centers, and long-term care facilities.

AUDIENCE

Anyone interested in learning the program for personal use or wanting to teach tai chi. Physical and occupational therapists, PTAs, COTAs, nurses, activity directors, recreational and fitness professionals, tai chi and other martial arts instructors, acupuncturists, and integrative health practitioners.
